Teaching Thousands Pays Off

Bennie DeMerchant emphatically believes that teaching thousands of Brazilians is paying off with explosion and solid growth in the work. They have been involved in Bible school work since 1972. Many of those who graduated in the 70's are now superintendents of large districts that are growing and also have Bible schools and now have three graduations of Indian converts who are doing a great job on upper Rio Negro area of northern Brazil. The government recognizes their

curriculum and gives them two years of college credit if any of the students would like to attend another college.

He writes, "Because of your faithful giving, with the help of the Lord, this vine in Brazil (a country of 200 million) has produced a constituency of 82,200 in 1,251 churches and preaching points. Fifty three Bible schools thrive with 182 dedicated teachers teaching missions and other

Students in Action

Jack Coolbaugh, Thailand reports that at the Thai General Conference there were eleven graduates that received their two-year diplomas. Four others were not able to come to the conference but their diplomas will be taken to them. This is the largest graduating class they have ever had and they are very thankful for what the Lord is doing.

Brother Coolbaugh also states that during school break, school staff and many students traveled to north central Thailand to help a small church with an outreach and revival lasting three days. The Bible school rented a large lighted platform and helped prepare food, songs, and testimonies for an evening service. During the day, church people “knocked doors” in small area towns and passed out invitations to every home for that service. About six hundred

One Bible School at a Time...One Nation at a Time

Roger Buckland recently stated to our Global Education Committee, “One Bible School at a time...one nation at a time.” His region contains seventy-five nations and more than 1.19 billion people and nearly twenty percent of the world’s population. He states, “The potential to reach the masses increases all the more with the approval of each new Bible school in our region.” At home, in the Czech Republic, the Bucklands have just completed translation of their three year curriculum. In Serbia, they are aggressively pursuing translation there. God’s Word, in one’s mother tongue, speaks the language of the heart.

Phenomenal Church Growth a Result of Consistent Bible School Training

The Bucklands recently were the guest speakers at the twenty-fifth anniversary of the Apostolic Institute of Ministries in Davao City, Philippines. This is where Brother Buckland had once served as president for nearly nine years. It was their joy to witness the phenomenal growth taking place, largely as a result of consistent Bible School training. About three hundred former graduates and staff members were able to attend this special celebration. From their departure
